

Queensland Department of Health and HHS Data Custodians

Requests for information should include the extraction period and type of information required.

NB: This is not an all-inclusive list. For smaller or more specific data sets, you may need to seek approval from the Director of the unit that maintains that data set. The Director / Manager Health Information Management at each facility may be able to direct you to the relevant area if necessary.

There are two parts to this table:

- **Part 1 relates to Hospital and Health Service (HHS) or individual Hospital level data** – for access to information within the HHS/Hospital. **Please direct all Public Health Applications for data custodian approval to the Health Information Manager/Director within the relevant HHS**, unless otherwise noted below.

- **Part 2 relates to state wide data**

NB: for access to notifiable conditions (**NOCS**) information or vaccination information (**VIVAS**) please direct all queries, regardless of the location for which information is being sought, to Queensland Health's Communicable Diseases Branch – contact details can be found in Part 2 of this table
