Prof Paul Glasziou
Director, Institute for
Evidence-Based Healthcare
Bond University

Professor of Evidence-Based Practice at Bond University and the Director of the Institute for Evidence Based Healthcare.

Prof Glasziou was the Director of the Centre for Evidence-Based Medicine in Oxford from 2003-2010. His key research interests include identifying and removing the barriers to using high quality research in everyday clinical practice.

He is a leader within the Reward Alliance, investigating research waste and promoting better prioritisation, design, conduct, regulation, management and reporting of health research.

Other research interests include overdiagnosis and overtreatment, general practice, uptake of evidence for non-drug interventions, and automation of systematic review processes.
